

# Report of the program 'One Day Awareness Campaign on Cyber Security and Emerging Technologies'

Time: April 19, 2022.

Venue: Core Room, Department of Geography.

- The program is jointly organized by IQAC Government Aizawl North College and NIELIT Mizoram, and all expenditure was funded by the NIELIT.
- The program is organized into two sessions and is divided into four lecture series, two in the forenoon and two in the afternoon session.
- Three resource person viz. Mr.Lalrempuia, STO, Mr.Lalsiamkima and Mr Samuel, Faculty for Information, NIELIT. The topics of the Awareness campaign are 1. Basics of Cyber Security and related risks, 2. Common cyber issues, Prevention and Challenges, 3. Emerging technologies.

The first Session was chaired by Dr.H.Laldinmawia, Asst. Professor, Department of Geography, and opened the session and welcome the NIELIT Team and the students.

Mr.Lalrempuia, STO presented 'Importance and Risks of Cyber Security and its related current issues' citing relevant examples; and interaction period followed, which is very fruitful.

Mr.Lalsiamkima presented topic of Emerging technologies covering Artificial Intelligence, Internet of Things, and Machine learning. As some students had studied Agriculture Geography which deals with

importance and application of AI and machine learning in economic activities, attention of students was interesting to witness.

The afternoon session was chaired by Dr.Saroj Laldinpuii, Coordinator, IQAC and HoD of English Department. She thanks the resource persons and welcomes the audience; and later Mr.Samuel from NIELIT takes over and delivered topic on Basics of Cyber Security and its related issues. Interaction with

the audience followed, which is very interesting. After the interaction period, Mr.Lalsiamkima take the podium and continue lecture on emerging technologies.

The resource persons from NIELIT, with strong passion to create awareness in regards to current Cyber related issues

are highly appreciated by the students of Government Aizawl North College. They have clearly presented statistical Scenario of Mizoram in Cyber related problems and clarify that whoever use smart mobile phones are exposing themselves in the risk. So that it is our duty to prevent ourselves and to enjoy social media responsibly. They highlighted the development and usefulness of emerging technologies for better formal and non-formal education, for economic development, governance and social life.
