CYBER SECURITY AWARENESS CAMPAIGN

On 9th September 2022, Cyber Security Awareness Campaign was held in the college from 10.00 AM to 12.00 PM. This campaign was jointly organised by **_Internal Quality Assurance Cell (IQAC), Govt. Aizawl North College and NIELIT, Aizawl._**

Cyber security is one of the most relevant topics in today's world and the awareness is a necessity. Social media is no longer a foreign language to us, it is used in most houses and the awareness to protect ourselves as we use it is much needed. Therefore, two classrooms were allotted for this campaign in order to fit the maximum number of students possible. The campaign was held in two classrooms which were room No. A-3 and room No.304. Room No. A-3 was attended by 100 students of 1st Semester, Section A and room No. 304 was attended by 100 students of 1st Semester, Section C. Four Resource Persons from NIELET were given one hour each to deliver their speech in the two classrooms.

The information passed on by them was important and interesting. The resourceful lecture was followed by a dynamic interaction and discussion. The students were eagerly participating in asking questions which made this program a success. The students piqued great interest on this topic as this is something very relevant today with the widespread use of social media in our daily lives. The insightful program is believed to have made the students more aware of the safer ways in which they can use social media and prevent themselves from cyber-bullying and more.
