Subject: Request to grant permission for conducting Risk Perception study in your respective college/university

Sir/Madam,

This is to kindly inform you that Department of Community Medicine and School of Public Health, PGIMER Chandigarh is conducting a research study entitled "Exploratory study on exploring HIV risk perception, behavior/ practices and the various communication channels of interest among youth in the three cities of India" in association with the National AIDS Control Organization to explore and understand HIV risk perception, behavior, and the various communication channels of interest among youth in three cities of India, for developing and/or strengthening communication interventions of the HIV national program.

For the implementation of this study, participants will be selected from colleges, universities, and youth clubs. The study will be carried out from October 2021 to December 2021 in Aizawl District, Mizoram among college-going youth and school dropouts aged 18 to 29 years. Colleges and universities were selected as per student strength. Your college/university is eligible as per the criteria of this study.

In this regard, we request you to kindly allow our research team to conduct group discussions and interviews with the students of your college/university. The proposal of the research has been attached for your kind perusal.

Thanking you

Yours Sincerely

(P.V.M. Lakshmi)
