

**STUDY TOUR CUM FACULTIES AND STUDENTS EXCHANGE PROGRAMME BETWEEN DEPARTMENT OF GEOGRAPHY, GOVT. AIZAWL NORTH COLLEGE AND GOVT. SAITUAL COLLEGE**

The Department of Geography at Government Aizawl North College organized a study tour program from the 14th to the 15th of March, 2024, for final semester students as outlined in the syllabus (Paper XI, Part C). The tour included visits to Tamdil and Sihfa villages in Saitual district, located near Saitual town, renowned for being among the most famous lakes in Mizoram and for their highly attractive agricultural activities. These sites were surveyed for dissertation purposes. Furthermore, the villages exhibit considerable potential for agricultural development, attributed to the adoption of a new technology known as 'Changkham' in their shifting agriculture practices. Two buses were hired to accommodate 60 students, while three faculty members from the department guided the tour.

During the tour program, a faculty and student exchange program was arranged between the Department of Geography at Government Aizawl North College and the Department of Geography at Government Saitual College for one day on 15<sup>th</sup> March , 2024. The aim was to enhance collaboration and communal harmony between the colleges and to strengthen academic activities. This program proved to be very meaningful and fruitful for both faculty and students. It marks the second time Government Aizawl North College has participated in such an exchange program with colleges from different districts, which stands as a great achievement for the department. Both parties delivered two presentations each, followed by a successful interaction program.
