M E S S A G E

I am pleased to be writing this message for the 23rd edition of **Parfung**, the annual college magazine published by the Students' Union of Government Aizawl North College.

Calvin Coolidge, the former President of the United States of America famously said, "Nothing is more common than unsuccessful men with talent." I think this quote best encapsulates the challenges that modern college students face viz-a-viz your education and career prospects once you leave college. You are all old enough to recognize that talent and passions are not enough to ensure a secure future; you also need to have determination and persistence to overcome initial failures that many of you will no doubt encounter once you begin your quest for employment either as entrepreneurs or employees. As a matter of fact, you will discover that for the vast majority of people, getting a job is just the beginning as life will present you with trials and tribulations that require tackling with a level head and determination. Thus, I urge you to use the time you have now not only to do your best in your studies but also to develop into well rounded individuals armed with the knowledge and skills required to navigate life after formal education which as you all know, is highly competitive. One thing I would like to emphasize is the importance of cultivating sound financial habits from an early age. While not everyone is destined to become a high ranking officer or a suc-

cessful entrepreneur, you should at the very least, do justice to your own abilities to the extent that you become financially independent and are able to sustain that independence. The one thing that can help you achieve this is by familiarizing yourselves with the concept of Personal Finance and adopting prudent spending habits once you have an income.

I would like to convey my best wishes to the students of Government Aizawl North College and also to the administration and faculty for success in your current and future endeavours.

M E S S A G E

It gives me immense pleasure to learn that the Editorial Board is publishing the College Annual Magazine “PARFUNG” for the Academic Session 2022-2023. Taking the opportunity, I welcomed all the students of Govt. Aizawl North College, which is situated at the heart of Aizawl city, being committed to provide high quality education to students at Under Graduate Level in Arts stream only. It is a matter of pride and satisfaction for students to get admission in this institution with qualified and experience faculty members who tried to impart holistic education to the students through brainstorming session, seminars, presentations, invited lectures, educational tour and the alike besides a number of co-curricular activities.

The College would like to thank the government for construction of two vertical extension of college building under RUSA 2.0 which housed Principal’s Office, Exam Cell, Establishment room, IQAC room, RUSA Coordinator’s room and IGNOU room, two class rooms and a seminar hall besides renovating faculty room.

As head of the institution, I would like to remind the students that the quality of time you spent during your college life will mould your future life. You are solely responsible for your success or failure. Napoleon Bonaparte once said, “Impossible is a word to be found only in the dictionary of fools”. So, keep away the word ‘impossible’ from you.

Anything is possible if you set targets and put action to achieve it. There is no progress without action.

Build healthy relationship with others. Learn to appreciate the world around you. Be full control of your life and make the unattainable a reality in your life and in the lives of others without expecting anything in return. Do remember that you are the future of our society, our state and the nation at large.

Thanks to all the contributors for expressing your thoughts, ideas, feelings, aspirations and convictions in a creative way for the successful publication of the Magazine without which the magazine will not see the light of the day.

My sincere thanks to all our dedicated staffs (both teaching and non-teachings) and students who make the college move forward to achieve our goals. Last, but not the least, my sincere thanks to the Magazine Editor, Professor-in-charges and Editorial Board for your tireless efforts for the successful publication of the College Magazine "PARFUNG".

2. WINTER FEST ON HIV/AIDS: Red Ribbon Club of Govt Aizawl North College organized a Winter Fest on HIV/AIDS on October 21, 2022. The main focus of the fest is to raise awareness about HIV/AIDS among the students. At the same time, various items were included so that all students can participate in this fest. A box of condoms provided by MSACS was distributed by the Peer Educators in each class the day before the fest. Since the festival aims at the participation of all students, a painting and poster competition on the theme of HIV/ AIDS was organized among the students, offering attractive prizes and selecting the three best winners from the number of paintings and posters submitted, which were pasted on the College Board and wall. The students also wrote slogans with which the stall was decorated on the day of the festival.

There are seven stalls on campus that the different departments of the college are responsible for, and the students had a lot of fun setting up their stalls, using their classroom. Their stall displayed and sold various items such as cakes, cookies baked by the students, key chains, and clothing made by the students. The stalls also included various games such as face painting, nail art, book fair, cosplay and borrowed costume items. The most visited booth was the haunted house organized by the Education Department.

The opening of the Winter Festival was held in Room No 405 as a formal function. It was presided over by the Nodal Officer Mr Lalchhanhima Tlau Asst Professor, Dept of Mizo. Nicky Lalramchuana Peer Educator, V Semester, Dept of Mizo delivered a Bible reading and prayer, followed by an opening address by Prof S.Haukhanlian Mate, Principal of GANC. No of Participants on HIV self-test: 70 (Male-38, Female-32)

DETAILED PROGRAM OF THE INTERVENTION

First session

- The programme was opened by Dr. Rita Zomuanpuii, Scientist B ICMR - NARI, with an introduction to the topic and the inclusion of age, and she read the consent form.
- She asked students between the ages of 18 and 24 who were willing to participate in the self-test study to raise their hands, whereupon 70 of 105 students raised their hands.
- The willing students started to fill in the questionnaires until phase 3

Second Session

- The speaker Mrs. Vanlalruati explained to the students the mode of HIV transmission. She advised the students to get tested before getting married because one cannot be sure that his or her partner is safe and he or she could be involved in a very long chain of relationships.
- She explained that contracting HIV is not a death sentence, as good medications are available, and explained ABC and the importance of

choosing a partner when building a relationship. She also encouraged never discriminating against an infected person.

- She further inquired about the importance of regular and timely treatment, as timely and regular medication leads to more effective treatment, while irregular medication may lead to the infected person having to start the medication all over again. She urged them to remember ABC and encouraged the students to stay negative in their future.

Third session - Self Test

- Of the students who were willing to participate in the survey to learn their status, there were 70, of which 38 were male and 32 were female. 8 of them used a saliva-based test kit and 62 determined their status through a blood-based test kit.

Speaker C.Lalduhawma gives a presentation on-

1. How TB has spread in the world-
 1. Mycobacterium Tuberculosis is the reason why people suffer from TB
 2. Every year over 16 lakhs people die from this disease in the world
 3. Every year, more than 600 people die from TB in India
 4. Every year, about 2500 people in Mizoram contract this disease
2. He stated that any person, from infants to adults, can suffer from this disease and that TB can occur in any part of the human body. However, about 85-90 people suffer from the lungs TB. And these people suffering from lung TB can easily spread the disease to other people. If the person is not careful,

they can spread the disease to another 10-15 people within a year. Another 10-15 occur outside the lungs, and if this happens, it is difficult to transmit the disease to other people.

3. TB disease can be cured if caught early. The patient needs 6 months to recover by taking medication daily. The medicines are available in the Sub-centre and in the TB centre. But if one does not follow proper medication intake, one can suffer from Multi Drug Resistant TB.
4. The speaker conveyed a very important message to the students that they should avoid smoking and all types of tobacco as they are the ones who always get this disease. He asked all the students to make a pledge by collectively citing a TB free India by 2025. The event ended with the students signing the banner pasted on the wall so that all communities can be free from this disease and lead a healthy life.
