

DEPARTMENT OF ECONOMICS

PROGRAMME OUTCOME

The completion of B.A. programme in Economics provides students with a well-founded, basic concept in economics of the highest quality.

They can efficiently read, understand and interpret various economic aspects.

They acquire strong skills in approaching matters with analytical, innovative and the economic way of thinking

The programme allows students to choose and pursue a wide range of economic specializaion such as banking, financial institutions and markets.

The students are imparted with traits and skills that allow them to further collect more vast knowledge and information from other resources like E-resources and the library.

PROGRAM SPECIFIC OUTCOMES

Economics students will be able to understand the history and also the current economic conditions of the country. As they develop knowledge on the conceptual models in policies and market conditions they are equipped with rigorous analysis ability. They can be massive contributors in the building of a better economy for the country as they are quick thinkers in finding solutions to economic problems.

They are acquainted with courses like statistics, mathematics and an economic principle which helps them understand issues regarding data collection, organizing, presentation and the issues involved therein.

Through the study of various courses the students develop analytical skills on developing and evaluation of policies. They can produce agendas that will reform the public finance sector in their functioning and structuring.
